OUTSTANDING OPPORTUNITY: The Gold Coast's Propertyfarm is targeting a high-growth region of the Hunter Valley where it is yielding consistent solid returns for buyers. Property prices in the Hunter Valley region have

resisted the falls seen in other areas of the state – particularly around Sydney. At the heart of this region is the Muswellbrook Shire which expert property investors have identified as one of Australia's Top 10 property

hot spots. Propertyfarm Director Nathan Cross said there were few places in Australia with the capital gains growth potential of Muswellbrook. "Our Gold Coast investors have reaped the capital gains rewards," he said.

"With the expanding coal industry providing employment opportunities, the Liddell and Bayswater Power Stations and the flourishing wine grape industry, the shire has prospered."
