Travelling long distances for treatment and services is a massive impediment on receiving quality health care. eHealth and PCeHR provide the infrastructure for patients and health care providers living and working in rural locations to optimise health outcomes.

Our live interactive online webinar aims to provide rural pharmacists with relevant information regarding eHealth and PCeHR, how it will affect the way they can deliver services and how it can help them maximise the benefits for their patients. Importantly, it will provide a web based discussion forum for pharmacists to raise questions and receive sound advice from our speakers, as well as share thoughts and experiences with colleagues about eHealth. Although aimed at rural pharmacists, this webinar is relevant to all pharmacists.

Speakers include:
Mr David Ng
Branch Director, PSA SA/NT Branch and Pharmacist
Mr Justin Reeves
Cluster Hub Coordinator, Central Adelaide and Hills Medicare Local
